

# Support for Pioneering Research Initiated by the Next Generation

## 次世代研究者挑戦の研究プログラム

TUAT aims to cultivate "true science-based advanced innovation leaders" who have a cross-sectional view of agriculture and engineering, and who can lead research and technology development in collaboration with other research fields, in order to solve global issues facing humanity in the 21st century and to contribute to the achievement of the Sustainable Development Goals (SDGs).

As part of this cultivation, we will provide financial support for research expenses and research incentives to living expenses for doctoral students, as well as a variety of career development, training contents to strengthen cutting-edge research capabilities and support diverse career paths.

This program is one of the projects by the Japan Science and Technology Agency (JST) to support doctoral students to lead the future of science, technology, and innovation in Japan

## Early Selection for 2026 FL-Spring FL-Boost

No recruitment for the Next Generation AI Human Resource Development Program (FL-BOOST) in fall,

### RESEARCH SUPPORT EXPENSES

as living expenses

Spring 2.22 million yen/year  
Boost 2.7 million yen/year

### RESEARCH EXPENSES

as a research promotion

Spring: 0.2 million yen/year  
Boost: 1.2 million yen/year

### OVERSEAS TRAVEL EXPENSES

for Study, internship, lab rotation  
FL-Spring  
Support up to JPY 800,000  
/ for the first trip during FL fellows

### CAREER DEVELOPMENT & TRAINING CONTENT

Entrepreneur  
challenge

Interdisciplinary  
Integration Camp

Technical Writing

Doctor's Cafe

There are conditions for those who apply. In addition, there is a contribution fee that must be paid by supervisors in order to receive support. Please consult with your supervisor before applying. In addition, if you are selected, **you will be required to take part in some of the programs in the career development and training content, and you will be also required to file the final tax return every year, answer to the follow-up survey for 10 years after you complete/finish your FLOuRISH Fellowship Program, and etc.** Please apply after understanding these conditions.

※The above is an example of career development and training content.
